Alex Johnson

Full Stack Web Developer | E-commerce Specialist

📧 alex.johnson@email.com | 📞 +1 555 678 910 | 🌍 Remote | 🌐 portfolio: alexjohnson.dev

---

◆ **Professional Summary**

Results-driven Full Stack Web Developer with over 3 years of experience in developing scalable, responsive web applications with a focus on e-commerce platforms. Proven ability to build full-featured systems with shopping carts, secure payments, and real-time order tracking. Passionate about clean code, performance optimization, and intuitive user experiences.

◆ **Skills**

Languages & Frameworks: JavaScript, React, Node.js, Express.js
Databases: MongoDB, Firebase
Tools & Platforms: Git, GitHub, Docker, REST APIs, AWS
Other: Agile Development, UI/UX Principles, Payment Integration (Stripe, PayPal)

◆ **Work Experience**

Full Stack Developer

TechRetail Solutions | Mar 2023 – Present

- Developed and maintained an enterprise-level e-commerce platform from scratch using the MERN stack.

- Implemented user authentication, secure payments (Stripe/PayPal), and real-time order tracking features.

- Designed product management dashboards and optimized backend performance using MongoDB aggregations.

- Collaborated in an Agile team with designers and QA to deploy on AWS with CI/CD pipelines.

- Achievements:

  o Reduced shopping cart abandonment by 25%

  o Improved load time by 40% after backend optimizations

Web Developer

BrightWeb Agency | Jan 2021 – Feb 2023

- Delivered custom web and e-commerce sites for small businesses using React, Node.js, and MongoDB.

- Integrated RESTful APIs for payment, user management, and product search.

- **Refactored frontend components to follow DRY principles, improving maintainability.**

- ◆ **Education**

M.S. in Web Engineering & E-commerce Systems
Global Tech University | Graduated: 2023

Certifications

- **Certified Full Stack Web Developer – Udacity (2022)**

- **Professional Certificate in E-commerce Development – Coursera (2023)**

- ◆ **Projects**

🛒 **Modern E-commerce Platform**
Built a full-featured online store with product catalog, user auth, cart, and payments using the MERN stack. Implemented order tracking with real-time updates and admin controls.

📦 **Real-time Order Tracker**
Designed a tracking system with Node.js and WebSockets, enabling customers to view their package location live, synced with logistics partners.

- ◆ **Languages**

English – Fluent | Spanish – Intermediate

---

💼 Professional Experience

Senior Full Stack Developer

TechRetail Solutions | Mar 2023 – Present
📍 Remote

- Designed and developed a modern, fully functional e-commerce platform using React, Node.js, Express, and MongoDB.

- Created reusable and responsive components for dynamic product listings, reviews, filtering, and wishlists.

- Implemented secure user authentication (JWT, OAuth), payment systems (Stripe/PayPal), and multi-step checkout workflows.

- Engineered a real-time order tracking system using WebSockets.

- Developed admin dashboard for managing inventory, orders, and users.

- Led CI/CD pipeline setup with AWS and Docker for smooth deployments.

- Achievements:

    o Increased customer retention by 30% by improving UX and load times.

    o Reduced cart abandonment by 25% with enhanced checkout flow.

Full Stack Developer

BrightWeb Agency | Jan 2021 – Feb 2023

📍 **New York, NY (Hybrid)**

- **Built and maintained 15+ custom websites and e-commerce solutions for clients across fashion, tech, and healthcare.**

- **Utilized the MERN stack to deliver fast and scalable online stores with integrated payment systems.**

- **Worked closely with designers to implement mobile-first, accessible UIs.**

- **Wrote clean, testable code following best practices.**

- **Performed API integrations with third-party services like Shopify, Shippo, and Twilio.**

Junior Web Developer (Intern)

DevLaunchers Bootcamp | Jul 2020 – Dec 2020

📍 **Remote**

- **Participated in team-based development of a mock online store, gaining exposure to full project life cycle.**

- **Developed shopping cart logic and product catalog using vanilla JavaScript and Express.**

- **Collaborated using Git and Agile sprints.**

🎓 **Education**

Master of Science in Web Engineering & E-commerce Systems

📍 **Global Tech University | Graduated: 2023**

- **Thesis: "Building Scalable E-commerce Architectures with the MERN Stack"**

Bachelor of Science in Computer Science

📍 **University of California, Irvine | Graduated: 2020**

- **Relevant Courses: Database Systems, Software Engineering, Web Technologies, Secure Programming**

📜 **Certifications**

- ✅ **Certified Full Stack Web Developer – Udacity (2022)**

- ✅ **Professional Certificate in E-commerce Development – Coursera (2023)**

- ✅ **AWS Cloud Practitioner Essentials – Amazon (2023)**

🚀 **Projects**

E-Shop Pro (MERN Stack)

Full-featured online store with full CRUD, shopping cart, Stripe integration, and admin dashboard.
⚒ Tech: React, Redux, Node.js, Express, MongoDB, Stripe
🌼 GitHub: github.com/alexjohnson/eshop-pro

Real-time Delivery Tracker

Developed a GPS-based order tracking module that pushes live updates to users and delivery staff.
⚒ Tech: Node.js, WebSockets, React, Google Maps API
🌼 GitHub: github.com/alexjohnson/delivery-tracker

Freelance E-commerce Builds

Built small-scale stores for local businesses with CMS and analytics.
⚒ Tech: Next.js, Firebase, Stripe, TailwindCSS
